

Trade name: **Antiskin**

Chemical Name: Methyl - Ethyl - Ketoxime

Cas No. : 96-29-7

Specifications

Appearance	Clear Liquid
Viscosity mPa.s 20 °C	Max. 20
Odour	Characteristic (ketone)
Density 20°C g/Cm ³	0.925 - 0.930
Reflection Intex	1.442 – 1.443
Vapour Pressure mbar	3.5
Explosion Limits Vol%	Lower 1.9 Upper 12.3
Ignition Temperature °C	315
Boiling Point °C	152
Flash point °C	61- 62
Solidifies at °C	>-10

Solubility: In water 114 g/l and other polar solvent

Storage Stability: Keep containers tightly sealed at temperatures between -20 °C to 50 °C. Do not overheat to avoid thermal decomposition
